

Brooks' House of Bar-B-Q Menu Allergen Supplemental Guide

This guide is based from the FDA, 8 most common allergens for all ingredients and procedures in the menu items listed below. Please ask your server if you have any questions regarding the ingredients or how a menu item is prepared and they will get an owner or manager to answer any questions you may have. We strive to ensure that your entire experience here at Brooks' House of Bar-B-Q is the most pleasurable and that includes your health, high regard to food safety and our keen awareness of allergens.

FDA Most Common Allergens*:

MILK, EGGS, FISH, CRUSTACEAN SHELLFISH, TREE NUTS, PEANUTS, WHEAT, SOYBEANS

*If there is an allergen that is not present in the 8 most common listed above, please also ask your server or an owner or manager and they will get the information you are requesting.

*If ordering anything from the fryer and you have intolerance to any of the above allergens (i.e. shellfish), please speak with your server.

**The HOOD Ice Cream that we serve does share equipment that also runs products that contain egg, soy, wheat, tree nut and peanut.
